To Whom It May Concern:

It has been my pleasure to work with Ms. Stacy Greene on numerous domestic cases. I have been contracted by Ms. Greene to perform alimony calculations, division of asset recommendations and other case specific reports.

As a Certified Public Accountant (CPA) and a Certified Divorce Financial Analyst (CDFA), I recognize the importance of recommending not only an equitable, but also a fair settlement in divorce litigation. Ms. Greene embodies this belief as well and goes the extra mile to ensure that her clients receive what is fair and just.

I have found Ms. Greene to be very professional in the way she works with her clients, as well as the attorney's that employ her services. She has proven to be very efficient and thorough in preparing a case for mediation, settlement or trial. She does not leave any stone unturned when it comes to presenting the best case possible for her clients.

She is prompt to provide me information requested and is always available for follow up questions. She is even available on the weekends if necessary.

It has indeed been a pleasure to work with Ms. Greene and I look forward to many more opportunities to work with her in the future.

Sincerely,

D. Wyatt Henderson CPA, CDFA
